4. The paper "Functional Responsibilities of the Professional Selection Panel", dated 31 October 1952 was discussed in detail. The discussion revealed that three major issues were involved:

- a. Should the final determination of "suitability to work in CIA on a career basis" be the responsibility of the Professional Selection Panel as stated in the Career Service Program or should it be the responsibility of the Personnel Office?
- b. Should the Professional Selection Panel concern itself with the final approval for selection of only those individuals who have passed the "one-way valves" of Personnel, Medical or Security as stated in the Career Service Program, or
- c. Should the Panel also include within its consideration controversies growing out of adverse findings in the Personnel, Medical or Security processes in order to make recommendations to the appropriate CIA officials?

The Chairman of the CIA Career Service Board directed that the Chairman of the Professional Selection Panel should continue inquiry into the criteria by which "suitability to work in CIA on a career basis" might be determined and stated that the question of how this matter would be administered would be decided at a later date.

5. The meeting adjourned at 5:47 P.M.
